

Bria iPad Edition configuration guide

This manual explain how to configure your iPad with Netelip service to make and receive telephone calls using Bria voip application.

Step 1

Register at <http://www.netelip.com/>.

Once registered, you will receive an e-mail with your SIP account data (user, password and server domain)

Step 2

Download and install Bria iPad Edition application from the appstore. Download cost is 11.99 €

<http://itunes.apple.com/es/app/bria-ipad-voip-sip-phone-video/id440744818?mt=8>

Step 3

Open application and click on “Tools” icon

Step 4

On accounts section, clic icon + to create a new account.

Step 5

Choose a SIP account.

Step 6

Fill out the following fields:

Account name: Enter Netelip.

Show as: Enter your name or business.

SIP User: Enter your SIP user. This detail was sent to you by e-mail when you first registered at Netelip. Is a numeric data.

Password: Use the SIP password.

Domain: sip.netelip.com or vpbx.netelip.com

Do not forget to clic on button “active account” just under user name.

* If you are setting an extension of your PBX, remember to enter a proxy server:
vpbx.netelip.com
